

## Parts List

The parts below are in this package.

Shaft	1pc	Base	1pc	Counterweight	1pc	Ball Plunger (M10x30)	2pcs	Hex L-wrench (8mm)	1pc
									

## Assemble the Calibration Bar

1

Install the shaft on the base.

\*Make sure the R mark points to the V-shaped side at the bottom of the base.

\*Make sure the shaft groove is aligned with the bayonet at the upper end of the base.

2

Install the set screws at both ends of the shaft.

3

Place the counterweight as shown in the illustration above. The Calibration Bar assembly is now complete.

\*Counterweight: Keep balance when the target is used.
