

*Thank you for purchasing this Autel diagnostic tool. This tool, manufactured to a high standard will if used according to the instructions and properly maintained give you years of trouble-free performance.*

## Assemble the front camera calibrator

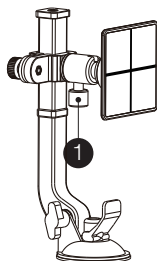

1

**Step 1:** Remove the target board and the frame of the LDW Front Camera Calibrator from the Target Board Package.

Insert the screw on the frame into the screw hole on the target board. Rotate the target board clockwise to secure the target board.

2

**Step 2:** Loosen the adjustment knob① on the frame, adjust the target board to make the bubble level face up. Tighten the adjustment knob.
